Germany Blocking England in Africa.

Want the Little Isle to Stop With Egypt.

Reports of More Bitter Feeling Between Prince Bismarck and the Emperor.

(Copyrighted by the New York Associated Press.)

BERLIN, May 24.—Negotiations with England concerning the territory in Africa have been abruptly suspended by the British Ambassador under orders from Lord Salisbury, and the Ambassador intimates that they will be resumed only on the basis of a recognition by Germany of English rights on the west coast of lake Tanganyika and the Territories north of Tanganyika, including Uganda.

This abrupt action, which the foreign office attributes to public clamor in England, has brought out an energetic protest from Chancellor Caprivi, which is undoubtedly inspired by the Emperor. The North German Gazette intimates that Germany will uphold the continuance of the English occupation of Egypt if Germany obtains a hold in the districts of Central Africa claimed by England.

TOASTING ENGLAND'S QUEEN.

Emperor William is celebrating the Queen's birthday with unusual ceremony, while the British Embassy was banqueted tonight at the royal castle. The Emperor toasted the Queen effusively. The English flag is displayed on every government building. It is not likely however that this display will induce Salisbury to concede to the German demands even if Egypt should be thrown in the balance. Caprivi will not modify his demands and the issue will be indefinite the suspension of negotiations leaving both parties to proceed with the game of territory grabbing.

MORE ARMY BURDENS.

It is believed now that the army bill will be passed by the Reichstag by a large majority, despite the government admission that the present demand is only an instalment. The *Freiburger Zeitung* says that the disclosures made to the committee show that in the near future the effective peace footing of the army will be 14,000 instead of 468,000 men.

STORIES ABOUT BISMARCK.

The Socialist and Freizine papers teem with stories about the Emperor and Bismarck. It is asserted that the Emperor is highly incensed because of Bismarck's statements to correspondents in foreign papers that he speaks of the ex-Chancellor as being only fit for a lunatic asylum, and that he intends to send him a final warning before dealing with him as an enemy of the state. What ever may be the Emperor's calculation it has not caused any rupture with Bismarck. The Emperor has sent a letter to Von Moltke warmly congratulating him upon his recent speech in the Reichstag in favor of the army bill.

A BANKRUPT PRINCE.

Prince William of Saxe-Weimar has been declared bankrupt. His debts due to gambling are 24,000 marks.

CLARKSON ON THE SOUTH.

Why the Western Farmer is a Protectionist.

BOSTON, May 24.—Prominent gentlemen from all parts of the State were present in large numbers yesterday to meet First Assistant Postmaster-General Clarkson, who was the guest of the Norfolk club. Several speeches were made, among them one by Mr. Clarkson, who spoke entertainingly upon the Southern question, civil service reform and the tariff. The speaker referring to the South said that the nation is now face to face with a great duty. It had to decide whether in its sovereign power, it should allow Georgia, South Carolina or any other State to prevent American citizens from exercising their constitutional right to vote. On the tariff and the west the speaker said that the claim that the northwest was for free trade was not true. In the last Republican National convention it was said the party must stand stronger for protection and the best protectionist in the United States today was the western farmer. Free trade has sought audaciously to set up its empire in the northwest, but it will fail. "As a western man," he said, "I resent the pity bestowed upon the western farmer. He is passing through a temporary depression and he will come out of it yet by his strength and wisdom."

RESUBMISSION IN KANSAS.

A Convention of Anti-Prohibitionists in Session at Topeka.

TOPEKA, KANS., May 24.—The league Resubmission Club met here today in state convention, delegates being present from all but two of the congressional districts. A committee waited upon the Governor and asked him to attend the convention to listen to the reading of a Memorial petition asking him to call an extra session of the legislature to resubmit the prohibition amendment to a vote of the people. The Governor received the committee but refused to attend the

convention. A resolution was adopted condemning his refusal, as it was an insult to the people; also setting forth the objects of the organization to be the furthering of the best interests of the Republican party in Kansas, and the obtaining of resubmission through the instrumentality of that party.

THE CHICAGO UNIVERSITY.

Rockefeller's Magnificent Offer Grandly Met.

CHICAGO, May 24.—About a year ago John D. Rockefeller, of Cleveland, offered to give \$600,000 toward a new university projected by the Baptist of Chicago, provided the latter would raise \$400,000 necessary to complete the endowment of \$1,000,000. He named June 1 as the date by which the total sum must be subscribed. Rev. Dr. Goodspeed announced today that the task had been completed. Marshall Field, of Chicago, has given the university a tract of ten acres of ground on the south side and ten acres adjoining will be purchased.

Members of the iron and steel institute of Great Britain, the leading German steel and iron associations, leading French, Belgian and Swedish metallurgists will be guests. A month will be spent among the mining and other industries of this country.

More Than a Match for the Atlanta Boat Crew.

NEW HAVEN, May 24.—In today's boat race, Yale won by eight lengths. At the mile and a half stake what looked like a fatal accident happened to Yale. Allen, the captain and stroke, broke his oar with recovery and suddenly fell from the boat into the water.

He was picked up by the referee's boat, but the accident left the Yale crew with but seven men and without a stroke. The captain of the *Atlantis* now started, but the Yale boys showed their hand by answering and the *Atlantis* could not draw up at all. This is the first defeat ever suffered by the Atlanta crew.

HIGHBINDER'S WORK.

THE CHINESE MURDER DEVELOPS A MYSTERY.

There Was no Altercation at the Garden When Tong Nua was Killed—Murdered in Cold Blood.

Is there a Chinese highbinder's society in the peaceful city of Phoenix? From developments made at the Coroner's inquest held upon the body of Tong Nua, murdered at the vegetable garden on Gray's ranch, it would look very much as though this murderous guild of yellow demons had attained a lodgment here.

Justice Sherman held an inquest upon the body of Nua yesterday, going out to the garden with a jury in the forenoon to view the remains.

PARTY ORGANIZATION.

Congressional Committee Finally Selected.

Arizona Will Not Be Represented Thereon.

Decision in Favor of a Soldier Whose Filing on Public Lands Has Lapsed.

Is This Sarcasm.

Among them are: Montana, Representative Carter; Nevada, Representative Bartine; Oregon, Senator Dolph; California, Representative Vandever; Colorado, Representative Townsend; Washington, Representative Wilson; Wyoming, Delegate Carey; Idaho, Delegate Dubois; Alabama, Arizona, New Mexico, Utah, Mississippi, Texas, Florida and Georgia are as yet unrepresented, as they have no Republican representatives in Congress. The vacancies will be filled by selections to be made by the committee.

The committee met tonight, discussed the approaching campaign for two hours and selected a sub-committee to further consider the matter and report next week.

FAVORING THE SOLDIER.

Assistant Commissioner Stone today rendered a decision in which he holds that a soldier who makes a location filing under the homestead law of 1872, but who fails to make settlement thereon within six months, does not thereby forfeit his right to the land unless some adverse claim intervenes prior to the date he asked for settlement.

A GOOD TIME.

Pleasant Time at Phoenix Park Last Night.

A very pleasant party was that given by the "forty" at Phoenix Park last night. The music was excellent, the lunch served all that could be desired and all present enjoyed themselves to the utmost.

CHICAGO DYNAMITERS.

They Make an Effort to Blow Up the Haymarket Monument.

CHICAGO, May 24.—This morning the discovery was made of an attempt to blow up Haymarket Monument and the surrounding buildings with a gigantic charge of dynamite. A policeman passing the Monument saw at its base what appeared to be a roll of black cloth tied with a small rope. He picked it up and the supposed rope crumbled in his fingers, as though charred by fire. Tied up in the piece of black cloth was a tin can about twelve inches long and four inches in diameter. The vessel was evidently full of dynamite and weighed about ten pounds.

Billy Letcher led at the start, but was soon passed by Riley who kept the lead until the three-quarter post was passed. Bill Letcher was then given free rein and began to forge ahead and Riley's fate was sealed. In the stretch Murphy whistled the whip on Riley, but without avail, and Bill Letcher passed under the wire first amid great applause.

Electric Railroad for England.

London Times.

We have long been accustomed to associate any new development of electric traction with America, but a scheme is on foot in St. Petersburg which, if carried out, will certainly leave America far in the rear. It is proposed to have a railway worked entirely by electricity, connecting St. Petersburg with Archangel and spanning a wide stretch of country between the Baltic and White sea. The project is said to be backed by Archangel interests, and the name of Siemens & Co. is connected with the enterprise. The plan is to furnish the current from a series of generating stations distributed along the line. The distance is something over 500 miles, and the estimated cost a little over \$3,000 per mile, including rolling stock. The scheme is certainly a daring one, and while it may never reach accomplishment its further progress will be awaited with interest by the advocates of electric traction in England.

Is This Sarcasm.

THE Tombstone Epitaph: Hon. P. R. Brady, Chairman of the Zolick Board of Prison Commissioners, informs the *Epitaph* that the reason the Board did not give up the management of the prison was because they wished to carry the matter into the courts and spend their money in establishing a great principle, and not that they wanted to hold on to the offices from ulterior motives. Here is a sight for Gods and men! These two gentlemen, Messrs. Brady and Halleck, away out on the plains of Arizona, the editors of the *Epitaph* and the *Arizona*, are taking up the role of Hampden and Pym, and the barons who wrested Magna Charta from King John at Runnymede, and once more setting in motion the struggle for liberty in this oppressed land, and when it rushes down from the summit of the Rocky Mountains, spreading itself like a "boon of destruction," (whatever that is) over the Eastern States, it will doubtless cause Harrison to tremble in the presidential chair, dissolve Congress in its white and smash the Republican party all toinders. Hurrah for Brady and Halleck!
